

Quick Start Guide: Manage Your Benefits

Within Workday, you can manage your benefits by reporting coverage change events and viewing and editing your benefit elections. This quick start guide covers various events. Please contact benefits@proofpoint.com if you have further questions.

CHANGING YOUR BENEFIT ELECTIONS OUTSIDE OF OPEN ENROLLMENT

Life events do not always line up with enrollment periods. If you need to change your coverage because of a birth, death, marriage, divorce, or similar life event, you may be eligible to change your benefits to better fit your needs.

Find the Benefits application on your welcome page in Workday. Please note: Your list of applications may be different based on your role.

From the Benefits application:

1. Click the **Benefits** button under Change.
2. Select the **Benefit Event Type**.

3. Click the **Calendar** icon to enter the date of the Benefit event.
4. Attach required documents, if applicable.
