** indicates a holiday observed on the closest working day to the actual date*

*** only applies to some areas, see specific country's calendar for more details.*

****Expected dates, subject to lunar calendar*

NOTE - Where date-specific holidays fall on a weekend day and the country/local government has not yet set an observed date, our calendar reflects the nearest business day as the holiday when applicable. We continue checking governmental websites because in the future, they may declare the exact observed date. Once a month, the HR team will recheck for each country and update if needed to ensure that we are current if holidays have either moved, been added, or removed
